

MANAGED ACCOUNT

COLUMBIA INTERMEDIATE MUNICIPAL STRATEGY

Client service

Offers personalized client support through all aspects of our relationship to deliver customized investment solutions and help our clients meet their individual, long-term financial objectives

Focuses on tax-exempt income

Aims to deliver a high level of income exempt from federal income taxes in all markets

Takes advantage of research intensity

Uses rigorous fundamental credit research and bottom-up security selection to identify potential risks and uncover attractive, undervalued investment opportunities across issuers, sectors, credit ratings and geographic locations

Portfolio Management

Deborah Vargo

41 years of experience

Carri Dolin

33 years of experience

Bill Callagy

17 years of experience

Investment Objective

The strategy seeks current income exempt from federal income tax, consistent with preservation of principal.

Investing involves risk including the risk of loss of principal. There is no guarantee the objective will be achieved or that any return expectations will be met.

Past performance is not a guarantee of future results. Composite returns reflect the reinvestment of income and capital gains and are calculated and stated in US dollars, and periods over one year are annualized. Pure gross of fees performance does not include trading costs, management fees, or other expenses that would be incurred by a participant portfolio, but does reflect the expenses of any underlying fund and ETF investments. Net of fees performance reflects deduction of the maximum annual wrap fee of 3%. Investors should contact their financial advisor or program sponsor for fees applicable to their account.

3 - 5 years	17.1
5 - 7 years	31.7
7 - 10 years	32.0
Cash & Cash Equivalents	0.6

Investment risks- Investments in **municipal securities** will be affected by tax, legislative, regulatory, demographic or political changes, as well as changes impacting a state's financial, economic or other conditions. The relatively small size of the portfolio may necessitate investing more heavily in a single issuer or small number of issuers and, therefore, be more exposed to the risk of loss than a portfolio that invests more broadly. Federal and state tax rules apply to capital gains and any gains or losses on sales. Income may be subject to state, local or alternative minimum taxes. Fixed-income securities present issuer **default risk**. **Prepayment and extension** risk exists because a loan, bond or other investment may be called, prepaid or redeemed before maturity and similar yielding investments may not be available for purchase. **Market risk** may affect a single issuer, sector of the economy, industry or the market as a whole. A rise in **interest rates** may result in a price decline of fixed-income instruments held by the portfolio, negatively impacting its performance and market value. Falling rates may result in the portfolio investing in lower yielding debt instruments, lowering the portfolio's income and yield. These risks may be heightened for longer maturity and duration securities. Columbia Management Investment Advisers, LLC and its affiliates do not offer tax or legal advice. Consumers should consult with their tax advisor or attorney regarding their specific situation.

Advisory services provided by Columbia Management Investment Advisers, LLC ("CMIA"). For purposes of GIPS compliance, the Firm is defined as Columbia Threadneedle Investments Global Asset Management ("Columbia Threadneedle Investments GAM"), which includes accounts managed by the investment manager and certain of its affiliates. Columbia Threadneedle Investments Global Asset Management claims compliance with the Global Investment Performance Standards (GIPS®). GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

The firm's fees are available on request and may also be found in Part 2A of the Columbia Management Investment Advisers, LLC Form ADV. To receive a list of composite descriptions of Columbia Threadneedle Investments Global Asset Management and/or a presentation that complies with the GIPS standards, please send a request to salesinquiries@columbiathreadneedle.com.

[†] Third-party rating agencies provide bond ratings ranging from AAA (highest) to D (lowest). When three ratings are available from Moody's Ratings, S&P and Fitch, the middle rating is used. When two are available, the lower rating is used. If only one is available, that rating is used. If a security is Not Rated but has a rating by Kroll and/or DBRS, the same methodology is applied to those bonds that would otherwise be Not Rated. Bonds with no third-party rating are designated as Not Rated. Investments are primarily based on internal proprietary research and ratings assigned by our fixed income investment analysts. Therefore, securities designated as Not Rated do not necessarily indicate low credit quality, and for such securities the investment adviser evaluates the credit quality. Holdings of the portfolio other than bonds are categorized under Other. Credit ratings are subjective opinions of the credit rating agency and not statements of fact and may become stale or subject to change.

Duration measures the sensitivity of bond prices to changes in interest rates. Bonds with a higher duration experience greater price volatility from interest rate movements. **Yield-to-worst** is the lowest return that can be received on a bond without default and assumes the bond is called or redeemed by the issuer at the earliest opportunity.

Portfolio characteristics are based on the representative account and are subject to change. This information does not constitute investment advice and is issued without regard to specific investment objectives or the financial situation of any particular recipient. Individual portfolio performance and holdings may differ from information shown due to decisions made by the program sponsor, the size and timing of cash flows and client-specific investment guidelines and objectives.

The **Bloomberg 3-15 Year Blend Municipal Bond Index** is an unmanaged index that tracks investment grade municipal bonds. Bonds in the index have remaining maturities between 2 and 17 years. It is not possible to invest directly in an index.
